ONE LINE, THREE PRODUCTS

WE VISITED ZOOMARK BOLOGNA 2023

Zoomark International is a truly international showcase for the pet business community and companies across the industry, from food products to hygiene and convenience, from raw materials to finished products, machinery to packaging, logistics to services.

Zoomark offers its visitors an insight into what the global pet industry has to offer and between each edition develops a program of webinars, in-depth interviews and market focuses that aim to provide stakeholders with modern and effective tools to read the dynamics of the pet sector.

PSS SVIDNÍK a.s., a manufacturer and supplier of machines and lines for the production of pet food, participated in the globally important exhibition ZOOMARK, which took place in Bologna, Italy on 15-17 May, 2023. This event was a great opportunity for the company PSS Svidník to present its products and show its future in the field of pet food.

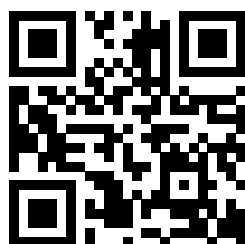

The company PSS SVIDNÍK a.s. participated in this exhibition together with the Danish company Dana Technology. During the 3 days of the exhibition, the company exhibited and presented machines and lines for the production of wet pet food, especially for dogs and cats.

Participation of PSS SVIDNÍK a.s. proved to be a success at the Zoomark exhibition. The company met a lot of potential customers and sold one machine to Spain for cutting meat for pet food one week after the exhibition.

We at PSS SVIDNÍK, a.s. help our customers to improve and achieve their goals.

By supplying premium products and services we ensure and take care that our customers, together with us, experience a pleasure.
